Spill Response Information Packet

The Spill Response Information Packet (AVAILABLE BY REQUEST) is designed for job sites, covered facilities and storage within vehicles for quick driver access. The information packet is ideal for policyholders having Transportation Pollution Liability, and/or job-site coverage such as Contractors Pollution Liability or Professional Liability.

Included in this electronic information packet are:

- Initial Incident Questionnaire, which provides a simple format to record the facts and circumstances of the event in preparation for reporting to the Crum and Forster Spill Response Program.
- Crum and Forster Spill Reporting Program Single Sheet and Trifold; information and instructions.
- Chemical Incident Response Decision Logic, which outlines simple onsite decision logic for immediate spill response.
- Accident Documentation Card, for recording additional information if vehicles were involved in the incident or spill.
- Witness Statements, which can be distributed to any individual who may have witnessed the event.
- Wallet Card Templates; pre-formatted printable template (front and back)

Additional electronic reference material included:

- C&F Spill Response Program Information Stickers; Dimensions: 3" x 2" Avery Labels: 22822, 22934, these stickers can be placed within vehicles, near chemical storage areas and communication centers within facilities.
- Emergency Response Guidebook 2016, U.S. Department of Transportation, Pipeline Hazardous Materials Safety Administration; copies of guidebook are available for purchase through the US Government Printing Office Bookstore (<https://bookstore.gpo.gov/>) and other commercial suppliers.
- Emergency Response Guidebook 2016, Tutorial for Mobile App for Android and iPhone, instructions on how to install and use the US DOT free ERG mobile application. Great way to have instant up to date reference material in the event of an incident or spill.
- Spill Control Equipment Brochure.

All electronic documentation is preformatted and printable.
