

Simple Cyber

For Accountants and Attorneys

Crum & Forster wants to make cyber insurance and cyber security easy for you. To do this, we've developed a simple cyber insurance policy that provides broad protection for existing and evolving cyber security risks. In addition to financial protection, we also provide important services to help protect your firm. This starts with assistance to help you identify the core cyber security practices to protect your firm. This extends to 24/7 access to the Crum & Forster Cyber Assistance Center, so you have access to immediate help if something does go wrong.
