

DC ENTERPRISE™ SAFETY PROGRAM

A PROACTIVE APPROACH TO HELPING DRIVERS IN YOUR FLEET IMPROVE THEIR SKILLS

Help Prevent Collisions and Improve Your Bottom Line by Protecting Every Driver

The Lytx DC Enterprise™ Safety Program is our most comprehensive DriveCam® safety solution. It's designed to help you maximize your results by letting you evaluate and coach your drivers with a program that supports you every step of the way.

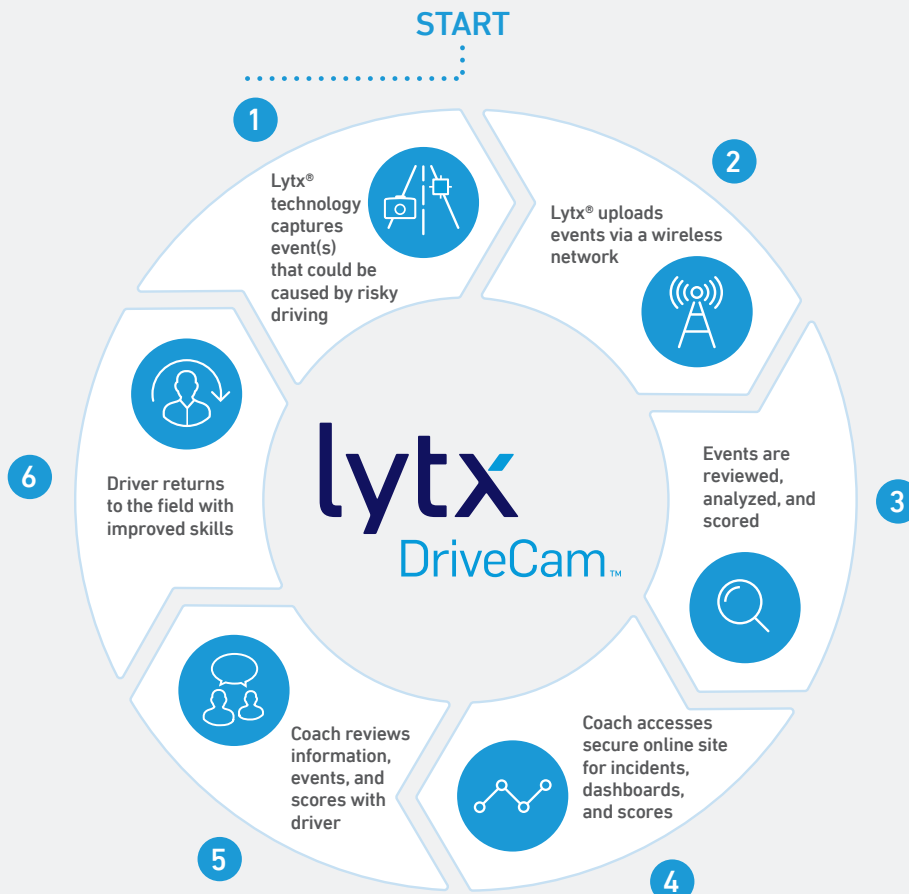

OUR PROGRAMS ARE PROVEN TO CHANGE DRIVER BEHAVIOR

We combine expert event review and analysis, advanced analytics, and a comprehensive coaching program that is designed to help improve driver performance and fleet safety.

The DC Enterprise Safety Program helps fleets improve their performance which results in bottom-line impact.

- **IMPROVED SAFETY:**
Lower preventable accident frequency and severity
- **RAPID ROI:**
Lower operating and claims costs
- **IMPROVED PRODUCTIVITY:**
No more lost work due to collisions

IMPROVING DRIVER PERFORMANCE IS KEY TO IMPROVING YOUR BUSINESS

The DC Enterprise Safety Program is a proactive safety and coaching solution that can help keep operating costs down and help get your drivers home safely. By combining video with advanced analytics and expert review, DC Enterprise can help you develop safer drivers, with measurable results, so you can better protect your drivers and your business.

The DC Enterprise Program gives you the support of a team of experts who can help ensure a smooth deployment, provide ongoing support, and guidance on continually improving results.

Predictive Analytics: Constantly improving algorithms help you identify and resolve driver behavior issues to help prevent collisions. Our insights are derived from analyzing over 45 billion driving miles.

Extensive Program Support: Dedicated experts are available to help you understand trends, answer your questions, and share best practices.

Quarterly Program Reviews*: Expert analysis ensures you're getting the highest ROI from your program.

Event-Based Video: Captures video and data only when triggered by an unusual driving event. Video can help inform coaching sessions, reward good driving, or help exonerate drivers and your company from false claims.

DriveCam Online: 24/7, secured access to prioritized coaching tasks, analytics, and extensive reporting tools to see how your entire fleet is performing.

eLearning Tools: Easily access resources designed to help program participants get up to speed quickly so they can be successful in their roles.

Proven Implementation Process: We've spent nearly 20 years perfecting our implementation process because we know that getting your program rolled out quickly and effectively is critical to achieving a fast return-on investment.

OUR CLIENTS GET TRUE RESULTS

For nearly twenty years, our clients have trusted Lytx to help protect their drivers and their reputations which is why we have a nearly 100% client retention rate. They know we're 100 percent invested in helping them achieve their long-term goals. And we'll be 100 percent invested in helping you achieve yours.
