

The C&F Target Segments Food Specialty unit offers a Risk Management industry specific solution for food related businesses. This program is for insureds that are willing to take on a Risk Managed approach with a significant retention and help reduce their total spend on insurance. The program provides a combination of industry focused claims handling solutions and experience insuring retail food related businesses. Our claims department uses a state of the art claims system to provide you with deep analytic capabilities which will better allow you to manage the claims within your retention. We have an AM Best rating of 'A' and are backed by a corporate parent that has a long-term proven record of financial wellness.

TARGET APPETITE

- Complete Acord application with accompanied exposure work books.
- Five years of exposure & premium history.
- Five years of dollar one currently valued loss runs (within 90 days).
Excel format appreciated.
- Two years of audited financial statements with accompanied interims.

CLAIM SERVICES

At Crum & Forster our claims department has received many accolades from clients and producers, including awards for service excellence. Our responsiveness, collaborative approach, and intimate knowledge of our clients businesses deliver results.

Our claims experts:

- Only adjust claims within the retail food industry and are experts handling retail exposures, including slip & fall, trip & fall and food product related claims.
- Understand what the legal requirements are of a store owner to keep their patrons safe. They have a deep understanding of what is negligence and what isn't and know when to fight a claim and when to equitably resolve a claim.
- Have historically resolved 80% of liability claims without an indemnity payment.
- More often than not pay less per claim on average than the generalist competitors who have less expertise in the retail food industry.

Our claims systems:

- Industry leading claims system tailored to the needs of our clients such as claims handling instructions, location and department coding and customized reports.
- You as a customer have access to your own proprietary dashboard of analytics which will better allow you to manage the claims within your retention.
