At Crum & Forster we are committed to helping keep your employees safe on the job. Slip and falls are one of the leading workers compensation claims. Those claims and associated cost companies up to \$70 billion per year[1].

Proper shoes can help prevent many potential injuries and help you operate a safer workplace, which over time can lead to a lower experience mod and lower premiums. According to a recently published NIOSH study, wearing Footwear from Shoes For Crews in the workplace was shown to reduce slip and fall occurrences by 67%[2]. Depending on the products purchased, you can save up to 20% on the retail price of quality slip, puncture, and crush resistant footwear from Shoes for Crews. (Discounts vary by style.)
