

C&F CYBERReady

Cyber Insurance Preparation Calls

Our team of cyber professionals are offering a complimentary cyber review well ahead of your 30-day insurance renewal period to **help you put the right controls in place to obtain the best possible renewal terms.**

We will meet with your insurance buyer, executives and IT leadership team to evaluate and educate your team on:

- The current state of the cyber insurance market and the impact on insureds
- Claims trends and cyber losses (ex: specific ransomware groups and vulnerabilities)
- Controls and exposures underwriters are focusing on in the current market
- The most critical controls you should have in place specific to your organization
- Steps you need to take to get the best possible renewal terms

Our team will also help you evaluate if you have the right controls in place. We also help you plan the steps you need to take in the near-term to present yourself in the best insurable position for your cyber insurance purchase.

At Crum & Forster, we strive to help you mitigate cyber risk, not just check the boxes. This consultative approach helps to prevent surprises and gives you peace of mind by identifying key issues in a challenging and ever-changing environment.
