

# C&F ENERGY VALUE-ADDED SERVICES

## **C&F SAFETY VIDEO LIBRARY**

An extensive library of more than 1,200 video trainings ranging from auto, excavation, JSAs, HR, to slips/trips and falls which include quizzes and handouts. These videos can be used for individual or group trainings with most available in Spanish.

## **LIVE MVR MONITORING**

Provides our clients access, at a discount, to a tool to aggregate driver data with near real-time alerts into a single platform. The product continuously monitors for changes to a driver's MVR, alerts an organization of any activity, automates risk analysis and presents a proprietary Driver Risk Score in an easy to use Driver Dashboard.

## **TRAINING COURSES**

### **Pipeline Construction Training**

A comprehensive OSHA compliant training program to help our clients train employees and manage the inherent risk with excavation and confined space exposures.

### **Well Control Training**

An extensive training course for well control that plays a critical role in the development of a competent crew for drilling, well servicing or workover operations. A crew's ability to respond quickly and successfully to a well control incident saves time, money, and, quite possibly, lives.

## **EMPLOYMENT SCREENING DISCOUNT**

Provides our clients with reliable and comprehensive background checks and employment screening solutions including: MVRs, background checks, drug testing, credit scores and more.

## **CHARITY RETURN TO WORK PROGRAM**

Charity work assignment is one of the Return to Work options that assist employers who are not able to accommodate temporary transitional work. This program offers light duty work performing restricted volunteer tasks at local non-profit organizations.

## **LOW OR NO COST PRESCRIPTION CARDS**

Assist employees obtain injury-related prescriptions at a pharmacy for low or no cost to the employee.

## **MEDICAL CARE ASSISTANCE**

Guides injured employees through the appropriate level of care following a work related accident. Registered nurses are available over the phone 24/7 to address workplace injuries. Medical professionals evaluate all of the factors involved in a workplace accident: injury details, personal medical history, medications, and other information in order to gain a holistic view of the person on the injury.
