

C&F Makes Cyber Simpler

Cyber Insurance Shouldn't Be A Distraction From Running Your Business

C&F wants you to focus on successfully running your business, not worrying about insurance. That's why we made Cyber insurance simpler.

Our Simple Cyber policy is easier to buy, easier to read, and easier to use, so it allows you to concentrate on your business.

Simple Cyber Policy

Easier to Buy

Before you apply, start with a CYBERReady Call that can help you get better coverage at a better price.

Experts from the C&F Cyber Solutions Team will provide you with feedback on how your application looks to an underwriter and offer suggestions on how you may be able to reduce your premium. At the same time, we can help translate technical jargon and bridge the communication gap between your executives/internal team and your brokers/underwriters so we're all on the same page.

Easier to Read

With straightforward language, our Cyber policy is designed to be easier to understand. The policy offers robust coverage, with important coverage features such as:

- Business interruption coverage including systems failure;
- Reputational Loss (full limits);
- Bricking - costs to repair/replace computer equipment (full limits); and
- Contingent bodily injury and property damage (full limits).
- Coverage for allegations of wrongful collection or use of protected information.

Easier to Use

Cyber insurance should do more than just pay a covered claim. Cyber insurance should swiftly respond to a cyber incident so you can maintain or restore your business operations.

That's why we start with an Onboarding Call with the C&F Cyber Solutions Team. On the call, we'll set mutual expectations for responding to an actual or suspected Cyber Event. This will help us quickly and efficiently deliver support and assistance.

From there, C&F also wants to make your claims process simple and easy. We offer 24/7/365 incident reporting, expert assistance, and innovative processes such as Business Interruption Express. It's all designed to facilitate a fast and highly effective response so you can return to running your business.

Immediate, Effective and Efficient Response to a Cyber Event

One call to our toll-free hotline, and the C&F Cyber Solutions Team will help you triage the event and contact the right vendors. C&F has identified a panel of outside resources to help you find the right attorney or specialist vendor to resolve your event. Our goal is to enable you to achieve a highly effective response and a highly efficient response in order to restore your business back to normalcy.

The C&F Cyber Solutions Team will simultaneously work with the C&F Claims Department to facilitate the management of your claim.

C&F has a dedicated team of claims professionals who are knowledgeable about and experienced with 'cyber' issues, and the urgency you feel to resolve those issues quickly. The C&F Claims Department constantly seeks new and innovative ways to make the process of filing and resolving a claim easier. Our clients particularly appreciate C&F Business Interruption Express, which is designed to streamline the process of resolving a business interruption loss.

C&F Simple Cyber policyholders have access to assistance 24/7/365.

If you think you are experiencing a cyber incident, call the C&F Cyber Solutions Team immediately.
